UTAC Receives Best Partnership Award from MELFAS

Singapore, 7 March 2016 – UTAC Holdings Ltd (UTAC), a Singapore-based semiconductor assembly and test services provider, today announced that it has received the “Best Partnership Award 2015” from MELFAS Inc. (MELFAS), a leading global provider of touch sensor solution provider.

UTAC is the only partner to be selected by MELFAS for this award which recognized UTAC’s excellent customer service and high level of responsiveness in providing assembly services for quad-flat no-lead (QFN) touch controller packages that are used for smart phone. In 2015, UTAC consistently exceeded expectations across key performance indicators such as increase production volume, faster cycle time while maintaining high quality standards.

“We are much pleased to present ‘Best Partnership Award’ to UTAC in 2015. UTAC has delivered the commitment with best quality package to MELFAS; it helped MELFAS to provide the controllers to the end customers on time. We would like to recognize UTAC’s efforts by supporting special attention. We strongly hope both companies carry on the relationship and succeed in the business to win more opportunities”, said Mr. S. D. Jeong, MELFAS’ Vice President of SCM/Operation.

“We are honored to receive MELFAS’ Best Partnership Award for 2015. This is the first time that MELFAS is presenting this award to suppliers and it underscores the successful partnership between our two companies. We thank MELFAS for recognizing efforts made by our team in UTAC and look forward to reinforcing this strong relationship through the continued successful implementation of key projects in the pipeline,” said Mr Jeff Osmun, UTAC’s Senior Vice President of Worldwide Sales.

About MELFAS Inc.

MELFAS Inc. (MELFAS) is a worldwide leading Touch Sensor solution provider established in 2000 with a mission to make electronics friendly and smart. MELFAS developed its 1st semiconductor fingerprint sensor in 2003, and now we are very proud of providing the best technologies and products including Touch Sensor Chips, embedded system technologies and diversified input applications for electronic devices such as mobile phones, MP3Ps, A/V devices, Home Appliances, DSCs and more. MELFAS employees, the core asset of MELFAS, will put the best effort to provide total input solutions to make electronic devices closer to the users.
