UTAC receives a top supplier award from Analog Devices, Inc.

Global semiconductor test and assembly services provider recognised for outstanding support for ADI/ LTC integration

Singapore, 08 July 2019 – UTAC Holdings Ltd. (“UTAC”), a global semiconductor test and assembly services provider, announced that the company received one of the top supplier awards from Analog Devices, Inc. (ADI). Steve Lattari, VP Assembly and Test Operations, Analog Devices, presented the award to Dr John Nelson, President & Chief Executive Officer, UTAC, on May 30 at the ADI 2019 Supplier Day in Boston.

At the event, the ADI senior management recognised UTAC as one of its top suppliers for 'Outstanding Support for ADI / LTC Integration'. Key to this award was the team's performance, attention to detail and excellent support levels throughout the year.

Dr John Nelson, President & CEO, UTAC, said: "We are very pleased with receiving this award, which demonstrates our commitment to ADI and the constant enhancement of our processes and services. I would like to thank our biggest asset: our employees, who tirelessly provide great value to our customers. We look forward

to continuing our fruitful partnership with ADI and to our mutual success in the future.”

Steve Lattari, VP Assembly and Test Operations, Analog Devices Inc. said: “The theme of ADI’s 2019 Supplier Day was ‘Excellence Through Partnership.’ During the day, we celebrated the suppliers who best partnered with us to achieve our strategic vision and manufacturing strategies in 2018 by providing differentiating service, quality, and new product integration support. We congratulate UTAC for its award and thank it for its outstanding support.”

About UTAC Holdings Ltd

UTAC Holdings Ltd is a leading independent provider of assembly and test services for a broad range of semiconductor chips. We offer a full range of semiconductor assembly and test services in these key product categories: analog, mixed-signal and logic, and memory. Our customers are primarily fabless companies, integrated device manufacturers and wafer foundries. We are headquartered in Singapore, with production facilities located in Singapore, Thailand, Taiwan, China, Indonesia, and Malaysia. We have a global sales network across United States, Japan, China and Taiwan, rest of Asia and Europe, with sales offices in each of these regions.
