

## **Notice: Measures Taken in Response to Coronavirus Outbreak**

Dear Esteemed Partners,

The Wuhan coronavirus has been spreading at an unprecedented rate. In view of this epidemic, the UTAC Group is adopting precautionary measures and advise all to refrain from travelling during this period.

Apart from machine maintenance and repairs, please avoid visiting our factories and offices, and instead use remote communication such as conference calls, Skype, etc.

Visitors to any of our factories and/or offices will be subjected to a compulsory travel declaration and temperature check.

We seek your cooperation in proactively providing us with updates on your operations, especially in the event of any potential disruptions that may be caused by this crisis. Please also share with us the precautionary measures your company is implementing.

We take this opportunity to thank you for your continued support.

Sincerely  
John Nelson  
Chief Executive Officer  
UTAC Group
